

# Petition To Terminate Employment Contract

**Whereas**, since 2012 ISD #518 Superintendent of Schools John Landgaard has ignored the majority will of voters who have opposed some variation of his plan to build a costly new campus on the west side of Worthington! Five referendums, under his leadership, have been rejected by the electorate, including the recent (2/12/19) least costly one, which had no organized opposition.

**Whereas**, the consequence is that Landgaard is dividing our community, attempting to harm the poor/middle class and the agricultural community, and is setting a poor financial example to the young people of the district.

**Whereas**, John Landgaard applied for the job of Superintendent of the Moorhead ISD in the Spring of 2018.

**Therefore**, we the undersigned eligible voters in ISD#518 do hereby petition the school board to terminate the employment contract of Superintendent John Landgaard under the statutory authority and powers of their board; and replace him with a school superintendent who will agree to help the district offer us a cost-effective proposal that will meet our educational space needs; and as a consequence, help unify the community behind our school district again.
